Mr. C. L. Milligan,
Horse Creek Block Coal Co.,
Morrisvale, West Va.

Dear Sir:-

At the request of the National Cash Register Co., at Charleston we are pleased to quote you on a supply of Patented Metal Scrip, sufficient to handle a \$1000. monthly scrip business, the Scrip to be assorted as follows;

200 Pieces Dollars	400 Pieces Halves	400 Pieces Quarters
700 " Dimes	500 " Nickels	1000 " Pennies

Price \$11.25. Terms; 10 days from date of invoice- 30 days net. F.O.B. Dayton, Ohio.

Patented Metal Scrip has proven an unequalled source of the greatest economy and satisfaction wherever adopted. Each piece of Patented Metal Scrip is surrounded with every possible safeguard. See the circular we are enclosing herewith. 80% of the operators in your state are enthusiastic users of Patented Metal Scrip.

Our prime has been to furnish the best possible Patented Metal Scrip at the lowest possible price and if favored with your order you may be assured it will be executed to your entire satisfaction.

Note please, that the first cost of Patented Metal Scrip is the last and only cost. You may reasonably enter the purchase price of Patented Metal Scrip upon your books of record as an asset item, for such it is.

Below we submit a rough sketch as a suggestion for the arrangement of the wording on the face side of your Scrip. The reverse side of the Scrip will carry in addition to our name and the denomination, the necessary wording to comply with the new Scrip law.

You will never from any standpoint, regret having adopted Patented Metal Scrip and it will indeed be a pleasure to us to render you the very best service possible if we are favored with your order, for which we thank you in advance.

Very truly yours,

Ingle - Schierloh Company.

Mr. Morgan C. Milne,
107 Moore Building,
Charleston, West Va.

Dear Mr. Milne:-

We are just in receipt of your favor of the 10th., which deals with the price of penny scrip. True, it would seem from the standpoint of denominational value, that penny scrip should be sold for less than the balance of the scrip. We wish we could make the face value of the scrip control the selling price. The fact is this Mr. Milne, while the penny scrip is smaller and does take a little less material, it is the meanest size to handle and this difference offsets the small difference in material.

Then too, the whole Scrip assortment should be taken into consideration when the purchase price or replacement price is considered. The big difference between the face value of the other sizes and their cost price, easily offsets the question as to the pennies.

However that may be, we want your business and rather than see you use Government Pennies and probably not be satisfied, we are willing to make a concession and put the pennies in at a price of \$20.00 a thousand. That means a loss to us in actual cost to say nothing of overhead, but that is what we propose.

We figured your assortment of 3600 pieces at \$37.50 per thousand. Figuring the pennies at \$10.00 per thousand, makes the total cost of the 3600 pieces \$107.75. In other words we are cutting the price quoted by just \$27.00 in order to have your good will as well as your business.

We hope that we may be favored promptly with your order and assure you it will have the very best attention.

Very truly yours,

Ingle-Schierloh Company.

Mr. Morgan C. Milne,
307 Moore Building,
Charleston, West Va.

Dear Mr. Milne:-

In reply to your letter of the 19th., we thank you for your order for Scrip for Horse Creek Block Coal Company, which we assure you will have our prompt attention.

With reference to the seeming variance in quotations submitted to you Mr. Milligan and yourself and those in our circular letter of recent date. We can readily see how you might become confused in the matter. The facts are, our quotation to Mr. Milligan was based upon 5000 pieces of assorted Scrip, to be used in connection with the National Scrip Issuing Register, whereas, the quotation in our circular letter was based upon 5000 pieces, our regular scrip supply for a \$5000. monthly business, where dollar scrip is issued from the office. Both quotations were based upon the same price per thousand.

In many cases the merchandise orders (W.C. plan) are issued in amounts up to \$25.00 or more, whereas when dollar scrip is issued from the office we never have anything larger than 1.00 to change. Therefore, where the merchandise order plan is used, we usually suggest a little more change.

We are always glad to have our customers suggest their own assortment if they so prefer.

Since supplying your Maxine plant we have changed our assortment somewhat as we found it better to increase the supply of smaller denominations and decrease the larger. More of the smaller denominations being lost than the larger being the reason for the change. We are quite sure that our present assortment will be found more practical.

In regard to the pennies, they do seem higher in comparison to government pennies, but the cost of producing the government penny is in direct ratio of its face value. Our cost on pennies is just as great as on the nickels, dimes and quarters, the small difference in material cost being easily offset by the fact, that the pennies being smaller, are more difficult to handle.

As for comparison with coupons which you formerly used, our pennies can be used repeatedly, whereas the coupons could be used but once per the penny coupon could just as much as the dollar coupon.

We think as likely, we have always considered that you can keep a sufficient supply of government pennies on hand it is just as well to use them although in some cases we have found this was difficult to do, and in some cases our pennies were used.

Our aim has always been to give a square deal to all and we trust our relations will prove mutually profitable and satisfactory. The next time

Mr. Morgan C. Milne -- 2.

The write is in Charleston he will be pleased to call at your office in order that we may become personally acquainted. Again, thanking you for your order, we are

Very sincerely,

Gentlemen:

Your letter of September 18, returning our check has been received.

According to your offer of August 22, you were to pay the delivery charges on Mullens Smokeless scrip should we pay for the scrip in advance.

On September 3, we changed the amount of our order and sent a check for \$25.00 as a payment on the total as we did not know the total charges. In this letter we also stated that we would remit the balance as soon as the total was known.

We were informed as to the balance due and changed the amount of our order again; this time by wire on September 8.

Your letter of September 9, stated a balance due of \$34.10 and we sent a check for that amount on September 12.

In all our correspondence there was nothing said about shipping the scrip COD. It is our understanding from the agreement that delivery charges are to be prepaid. Therefore we are returning our check for \$34.10 and ask you to notify the Post Office Dept. to release this shipment.

Very truly yours.

Mr. Ward W. Crist
New River & Pocahontas Stores
Windber, Pennsylvania

Dear Mr. Crist:

I am sorry I have not written you sooner regarding your scrip requirements for your various stores but, I wanted to recheck my figures and check your dies.

Taking into consideration the monthly business you are doing in your stores I have arrived at what I think your scrip requirements should be in order to operate with scrip in the most efficient manner. These requirements broken down by stores is on the attached sheet.

An analysis of your dies prove them to be of the old style design, therefore, it will be necessary that all new dies be made for each store and each denomination of scrip.

Your NET PRICES on scrip will be as follows:

<u>Denomination</u>	<u>1,000 to 3,000 pcs.</u>	<u>3,000 pcs. & Up</u>
.01	\$20.68/M	\$17.71/M
.05	43.54/M	37.95/M
.10	48.18/M	43.01/M
.25	50.16/M	45.10/M
.50	51.59/M	46.52/M
1.00	53.68/M	48.51/M

\$5.00 pieces of scrip, 1-1/4" dia. scalloped edge - \$56.30
per thousand, quantities of 1,000 pieces and up.

The necessary embossing dies to carry out your program will cost:

<u>Denomination</u>	<u>Charge</u>
.01	\$9.75 each store
.05	10.50 " "
.10	11.00 " "
.25	12.00 " "

Identification letters or numbers where new
ones are required..... \$19.50 each

At the present time we have an ample supply of 70-80 Brass, 85-15 Copper and Aluminum on hand to handle your entire order. This is, of course, subject to prior sale. Some of your scrip was formerly made of Nickel Silver but this metal is no longer available and we suggest one of the metals we have noted above.

An order developing from your inquiry would take about eight to twelve weeks before it could be completed. This is due to the great quantity of dies that would have to be made.

We certainly do appreciate this opportunity to be of service to you and expressing my appreciation for the courtesy shown me on my recent visit to your store, I am,

Very truly yours,

DTW:ws

D. T. Winter
Vice President & Sales Manager

P.S. Would it be possible to furnish us with some sort of a priority rating that we can replenish our stock of metal. We will appreciate your checking into this.

DTW.

Dear Mr. Tilden:

This is another of several suggestions I've written you for the past
day or so. I've been thinking about it for the past few
days. I think you have very many orders awaiting and the
time allotted the work, and I think a reasonable effort can be
made to get them out in a shorter time.

Kindness of your own will allow yours, and you can make in
writing, and the rest of the work can be done in writing like the
last time. I am writing.

Very truly yours,

Dear sirs:--

We would like to know if you would be able to furnish us a container for our metal script.

We would like to have this to hold, say about six or eight hundred dollars in one dollar pieces for the benefit of our pay roll man to use in the daily issue of script. If you have any such tray or container of this kind would be glad to have you mail us one immediately rendering invoice in duplicate to us here at this office, which we will take care of directly from this end.

Would thank you for an early reply regarding this matter since we are very much in need of same.

Yours very truly,

Will you be so good to forward, please,

enclosures:

1. pages of the Briefs. We are sorry to report that we have not received any Briefs since the several years. We desired for these and as well as that to justify our carrying them. We are now at this writing, there are eight in hand.

It would be an ideal solution, if we have a timber in these periods, for the to make one for you, by taking as a piece of the wood six or eight inches long and of the proper width. The whole a diameter of 1-1/2" has flattened and roll them into half round. Then following the edges together and laying the whole on a surface wooden tray, so as to give the tin'sitters' a base and sides. The construction of this should be a per, simple matter and we sincerely hope you will be able to make use of our experience. Naturally we are with regret that we are not situated to assist you in a more acceptable way.

RE: THACKER COAL & COKE CO. VS. HOUSTON COAL COMPANIES,
ET AL.

Gentlemen:

In looking over the list of general creditors we note from the bill that your claim amounts to \$57.97. Enclosed we hand you a memorandum, which is self-explanatory.

We are hereby calling a conference of the general creditors, to be held at this office on Monday, the 2nd day of September, 1935, at which time we hope that one of your officers, or authorized attorney, will be present.

Yours very truly,

Re: Case of Thacker Coal & Coke Co. vs. Houston Coal Companies, et als., pending in the Circuit Court of Mingo County, West Virginia

//////

The case being matured for hearing, the Court on July 15, 1935, entered a decree referring the cause to J. Brooks Lawson, a Commissioner of the court, to take evidence and report to court on sundry matters, including the assets of the Thacker Coal & Coke Company, the debts and liens against its property, and the order of their priorities. The Commissioner has given notice that he will begin his hearings on Tuesday, September 3, 1935.

We find in the bill of complaint filed in the Circuit Court of Mingo County, styled Thacker Coal & Coke Company v. Houston Companies, et als., an allegation reading as follows:

"That it is also the owner of a valuable leasehold, and upon which practically all of the permanent improvements of this plaintiff are situated, acquired under lease agreement between the defendant, Houston Coal Companies, as lessor, and this plaintiff, as lessee, bearing date October 28, 1933, and which contains in the aggregate approximately three thousand acres of land, and which said lease is attached hereto as part hereof, marked 'Exhibit No. 3'."

The records in the Clerk's Office show that on May 8, 1914, the Thacker Coal Company, a corporation, conveyed unto the Thacker Coal & Coke Company, a like corporation, nine several tracts of land, including interests in land situate generally on the watershed of Thacker Creek, and embracing supposedly about 3000 acres. This deed is of record in Deed Book No. 36, page 394. We do not find of record any deed from the Thacker Coal & Coke Company to the Houston Company, nor any lease from the latter company to the Thacker Company.

We saw Mr. Short in Cincinnati some time ago and discussed this matter with him, and he said that for the consideration of a part of the debts which the Thacker Company owed the Houston Company that the latter had conveyed the land to the Houston Company, and immediately thereafter took a lease from the Houston Company to the Thacker Company. We asked him if there were any notes evidencing the indebtedness mentioned in the bill of complaint, where it is averred that the Thacker Company is indebted as follows:

"Houston Coal Companies Royalty a/c	
Intercompany a/cs payable:	
Houston Coal Co.	208,883.93
Houston Coal Companies	59,229.67
Houston Realty Co.	250.00 \$268,363.60"

And he answered that there were not any notes; that this matter had been run as an open account, the Houston Company having advanced by check cash from time to time for twelve or fifteen years. It may be that a part of this account has expired by limitation. It is apparent that the attempt to transfer the land was either fraudulent, or at least voluntary.

On behalf of certain of the general creditors represented by us we propose to file an answer on behalf of these clients attacking the legality of the alleged deed from the Thacker Coal & Coke Company to the Houston Coal Companies, and to object to the payment of any rental upon the purported coal lease from the Houston Coal Companies as lessor to the Thacker Coal & Coke Company.

It seems to us that it is important that the general creditors, other than the Houston Companies, make a concerted effort along the line indicated.

Gentlemen:

We are getting ready to construct our store building at Nolan and will possibly be ready for the Metal Script some time in the next three or four weeks. In case your representative is in this territory or near our plant at Nolan this week we would like very much to see him, and complete the order we have with you, and arrange for the various forms of receipts etc. that are necessary to be used in connection with the handling of the script.

Yours truly

These receipts now printed and numbered 100 to the pad. In lots of 5000 to 10000 assorted, the price is \$2.75 per thousand receipts; in quantities of over 10000 assorted the price is \$2.25 per thousand receipts, same terms as before. We shall be pleased to supply you with these unless you choose to order locally.

To begin with, when the scrip arrives, all the Dollar pieces should be turned over to the issuing clerk and he made responsible for the sum total. All of the larger denominations, or a given amount of same if you prefer, and he made responsible for the sum total--these should be turned over to the store manager.

Since the dollar denomination is the highest, and not required to make change, all dollars coming into his possession, will be returned to the issuing clerk with the dollar amount and a receipt taken therefor.

 Issuing Clerk
 (Name should be made out in duplicate)

The store manager's daily cash report and the issuing clerk's daily scrip report should be made out in duplicate and the originals turned into the main office. The original cash report from the manager clerk sent to the store manager, should be added in his cash report and the duplicated kept with the copy of his report.

As a suggestion, your record sheets should be drawn up something as follows:

<u>ISSUING CLERK'S DAILY REPORT</u>				
Begin the day with	received from Store Manager	TOTAL	Less Today's Issues	Balance Dollar Scrip on hand
<u>STORE MANAGER'S DAILY CASH REPORT</u>				
Begin the day with	Today's Scrip Sales	TOTAL	Less Dollars returned to Issuing Clerk	Balance Scrip on hand

In ringing up the scrip on the cash register during the day, as received, the charge key on the register may be used and the total CASHED record as shown by the register checked up with the actual scrip count at the end of the day - just as you would check up the actual cash in the register with the cash record of the register.

To check up on obtain proof as to the correctness of the amount of Scrip Outstanding, take the original supply (dollars and cents face value) and deduct from this amount the total of scrip in possession of Issuing Clerk and Store Manager.

We do not furnish the foregoing record forms but merely make these suggestions for your guidance and believe they cover the ground. As stated however, we can furnish the employee's receipts at the prices quoted, if desired.

It is hoped that you will authorize us to proceed with your order for Scrip at once, since the time suggested for starting the store doesn't give us any too much time to properly execute the order and we want to see that all details are properly taken care of.

It will be greatly appreciated therefore, if you will please let us hear from you at once.

Very truly yours,

Mr. F. M. Baker, Jr.,
Salem Sheet Lumber Co.,
Box 687,
Washington, D. C.

Dear Mr. Baker:-

In your letter of the 10th., you mentioned "various forms of receipts" and in thinking the matter over, it may be that the writer misunderstood this. We supposed that you contemplated using the Customer Receipt Plan as outlined in our reply of May 11th. It is recalled however, that you had planned to adopt the National Cash Register's Merchandise Order issuing register- hence, it may be that you wanted some information as to the wording for the Merchandise Order - at least no harm can come from our submitting this additional information.

The back side of the Order is shown in the circular herewith. On the reverse side of the order would appear the following: "This order is good for merchandise in our store only. It is not transferable and will not be replaced if lost. Your account has been charged with amount printed on other side. This order will be redeemed for cash if presented by employee to whom issued on the settlement day of period for which it is order was issued".

This Merchandise Order is presented at the store with stub ATTACHED and then signed, after which the stub is detached and handed to the employee as his record of scrip drawn. The orders are handled at the store the same as so much currency when checking up sales. Later they are returned to the office and filed consecutively according to order number and date, each day's orders being kept separate for quick reference with the "detail strip" for that day handed around the orders and the date penciled thereon.

We trust that with the foregoing we have submitted all the information that you may have desired. If however, any other information is desired, feel free to call upon us and we shall gladly furnish same.

Trusting we may have the pleasure of hearing from you promptly, we are

Cordially and sincerely,

We have yours of the 18" in reference to the form of receipts to be used in connection with the script at our Nolan plant. We have decided not to use the National Cash Register Merchandise Order as yet but try out handling it another way for the time being, and are having some forms printed to take care of this. It is possible that a little later on we will decide to buy the National Cash issuing register, but right at this time we will not use it.

Gentlemen:

I am inclosing you an order for 2560 pieces
patented metal scrip to be used at our No. 4
store. We are using at the present time a
brass metal at one of our stores and copper
metal at another of our stores.

The Stover Coal Company, plant located about
one-half mile from this store are using brass
metal in their store, and the Branch Coal &

No. 4 store are using metal scrip made of
nickel.

We want this patented metal scrip made up from
some metal other than brass, nickel or copper.

Please rush this order as possible.

Dear Sirs,-

we find that due to the cost of having
permits made to meet the Consumers' Sales Tax collection,
we are suffering a distinct loss in having many
of our permits accepted at other stores, thus not only
the monetary loss, but are left handicapped thro' the inability
to make change as they get away from us as fast ^{(we had 250} ~~in stock~~

If you could produce 2, 3, & 4¢ pins cheaper
1¢ & change the shape to facilitate identification,
you would, I think, open up a new field for business.

Even tho' we might lose plenty of permits, many sales,
(average 50 cts) call for counting out 4¢ permits for
the customer & on 1.00 worth (we 650) 3 cents back,
this return on each sale calls for many coins
& for much counting. If you can produce
50¢ a piece of these for half value or less for shipment,
we'll gladly try out the idea & report back to you.
What is the best price you can make on permits for
use on old dies? Report order? J. B. Rupert, Treasurer,

Dear Sir:-

We thank you for your favor of the 18th.,
and for the privilege of quoting you on your Patented
Metal Scrip requirements.

The enclosed sample will acquaint you with the high
type of our Scrip and with the special wording required
under the new scrip statute. Inasmuch as this sample was
taken from a "run", will you be so good please, to return
it to us in the enclosed stamped addressed envelope.

As to an assortment of Patented Metal Scrip to meet
your requirements, the following is what we recommend as
a properly assorted unit for your business--

300 Pieces	\$1.00	200 Pieces	10¢
100 "	50¢	100 "	5¢
100 "	25¢	500 "	1¢

The above assortment, totaling one thousand, five
hundred pieces, we will furnish you for the sum of \$66.25,
less \$10 days or 30 days net from date of shipment; F.O.B.
Dayton, O.

Below, we give you a rough sketch of how the face of
your scrip will appear. You may rest assured you will be
furnished scrip of which you may justly feel proud, and to
that end we shall be pleased to give your order close and
personal supervision.

Bear in mind also please, that Continuous, Gratifying
and Money Saving service at a small cost is in store for
you if you adopt our Patented Metal Scrip, and, the one
small cost is the first, last and only cost.

We await the favor of your order which we will execute
with both care and dispatch.

Very sincerely yours,

Dear Sir:

It has not been our privilege to receive a reply from you to our letter of the 21st., instant, in which we submitted quotation on Patent Metal Strip.

We avail the opportunity to serve you and take occasion again to remind you that we are situated to furnish you the best Strip obtainable, both from the standpoint of Patented Protection and workmanship.

Patented Metal Strip cannot be surpassed by any plan from the standpoint of Economy, Convenience and Satisfaction.

The rough sketch submitted for the face of your scrip but poorly portrays the good appearance this suggested arrangement will give your scrip.

Don't you please enlighten us!

What are you ever so about ordering a supply of cards?
You asked for quotation which we promptly forwarded, but we
haven't been favored with any word since.

There can't be a question regarding the quality of our
diamond seal cards -- there's none better. And the price
we quoted you -- we doubt if you could get anyone's trade checks
for less.

What is the situation?

Have you placed your order? -- We know not.

May we expect to be favored with your business?

It will only take a moment of your time to give us the
desired information -- surely we're not asking too much of you.
Use the enclosed envelope and do it all, please.

Gentlemen:

We have about decided to purchase metal money per inquiry attached, for our stores in Logan and Kanawha fields.

I expect to be in Cincinnati, Gibson Hotel, Monday next, 10th inst., and if agreeable would like to discuss this subject with you while there.

As you know, we seem to prefer to have a coin of a distinctive shape, say hexagonal or octahedral rather than round with die punch through.

Am not certain today just what wording we want but I should know by Monday at Cincinnati.

Very truly yours,

J. J. O'Brien

Dear Mr. Sheridan:-

Just ran across the following and consider it
appropos--

"There never was a product made,
(This truth you must confess)
But what some bird can make it worse
And sell his junk for less."

In substantiation of the foregoing we submit
herewith for comparison, a brass Penny of our make and a
Nickel of a competitors make.

Knowledge is the result of long apprenticeship
and the end of knowledge is Service.

Service consists not merely of the spirit of
willingness to do conscientious work, BUT ALSO IN THE ABILITY
TO TURN OUT A JOB QUICKLY AND EFFICIENTLY. We are

Yours for SERVICE,

E. H. Ingle,
INGLE-SCHENCK COMPANY.

Dayton, Ohio.

Dear Mr. Ingle:

I returned to Fairmont Sunday morning and your letter of the 21st arrived the morning of the 24th. I should have answered this yesterday.

I note from first paragraph that you are proceeding to make up special dies, which perhaps is satisfactory, although I understood that you would submit the cut before proceeding with the dies. I would say, taking everything into consideration, that the suggested cut is satisfactory. The pie crusts are drawn on just a little shorter radius than I had thought of, although I believe they are better that way.

I note you have put the denomination at the bottom. I expect it is just as well to have it in that location. It would seem to me that the printing, for instance the Junior Mercantile Company, should go closer to the intersection of the pie crusts or the edge than shown by your cut, which would give more room for the "J. M. Co.", and also perhaps for the denominations, in other words, I believe the "J. M. Co." and denominations should be just as large as is possible to make them.

I am sending copy of this letter along with photostat of cut to Mr. Brooks. Mr. Campbell, as you know, is away on his vacation. I have half a notion to hold this thing up until he gets back and can approve the design.

When you say that you are having the dies made, do we understand that the wording is being done now as well as the shape of the die? If your end of the work is in such shape that it can be held up, I believe we had better do so and get Mr. Campbell's approval when he returns to Logan, which I think will be the latter part of this week. Am also sending copy of this letter to him. Since starting above, have decided to ask his office if they know his whereabouts, to mail his copy to him, and he can communicate with you direct.

Very truly yours,

J. W. Herndon
General Purchasing Agent.

Dear Sir:

Referring to my letter of August 25th relative to the dies for metal money, Mr. Campbell has returned to Logan and called me this morning, saying that he is entirely satisfied with the sketch you have submitted, except that he thinks my suggestion that you have wasted space between the inter-sections of the circles or arcs and the name of the Company is correct. In other words, move the Junior Mercantile Company out as far as you can, which will give that much more room for "J. M. Co." and the denomination, both of which we want just as large as we can have them, specially on the smaller coins.

I think the "O" in the "J. M. Co." should be smaller than the "C" - about half the size. Will you please change accordingly? This should give just a little more room for the other three letters.

You will recall I asked you whether or not the smaller coins would have as many pie crusts as the larger ones - you said you would have your designer work this out on a proper proportional basis.

Very truly yours,

General Purchasing Agent.

Have your wire today advising that you have noted details, which I suppose refers to our letter of yesterday.

I would like to be able to answer your telegram by wire, but it is necessary that I check first with Mr. Campbell relative to material to be used, which point, to be honest, I overlooked.

Mr. Campbell, before leaving for his vacation, agreed that the following metals would be satisfactory:

\$1.00	Brass
.50	Nickel
.25	Copper
.10	Brass
.05	Nickel
.01	Copper

I understand that your recommendation is that all the coins be brass with the exception of the nickel and that to be copper. Am asking Mr. Campbell upon receipt of copy of this letter to wire you if this meets with his views.

Very truly yours,

J. W. Sheridan
General Purchasing Agent.

Dear Sir:-

We are in receipt of yours of the 25th and 27th. We wired you today respecting material desired, and as recommended therein, we firmly believe that for best appearance and durability of finish, it would be hard to "beat" brass.

The details you set forth as to design have been very carefully noted. We shall crowd the name as close to the edge as is practicable in order to make more room for J M C o and the denomination. The danger in crowding the wording too close to the edge lies in the possibility of the coins showing a slight crack at the junction of the scallops - a feature that must be taken into consideration. We are most anxious to produce as nice a coin as possible and to that end be assured we will give the order our very best attention.

Mr. Ingle stated if the writer correctly recalls his remarks, that he promised you delivery within 5 weeks. We hesitate to commit ourselves but believe we are safe in saying that we hope to materially better that time. Trust us in this regard also, namely to leave no stone unturned to bring the order through as early as possible.

Very truly yours,

Ingle - Schierloh Company.

Dear Mr. Sheridan:-

With further reference to price quoted you on Patented Metal Strip, we shall not dwell on how much we can make on your initial strip order-- that's water over the dam. It is our sincere desire to deal squarely with you in an effort to get your business and at the same time make a slight profit.

The writer awaits Mr. Ingle's return to the office to discuss the matter with him and we have given it due consideration, with the result that we have concluded to make the prices quoted you on March 15th and requote as follows;

Dollars and halves	\$35.00	per M pieces
Quarters and Dimes	\$32.50	"
Wickels	25.00	"
Pennies	15.00	"

In quantities of 1000 and over of a single denomination and terms as previously quoted.

We trust that we may be favored with your future business and beg to assure you of our earnest desire to serve you efficiently and well. With kindest regards, we are

Schwind Building,
Dayton, Ohio

Referring to your letter of March 18th, attach
above order for 2000 - \$1.00 metal coins and 2500 -
50¢ metal coins.

Figuring the original specifications on the
basis of your prices as contained in the above
letter (our order No. 5551) the cost would have
been \$2,677.50 whereas you sold us for a lump sum
of \$1500.00, and, as you know, I could have bought
elsewhere at almost \$200.00 less!

Of course on small quantities we expect to
pay more than on the quantity we originally specified,
but to be frank with you, the prices contained in
your letter of March 18th are quite a shock!

Very naturally we are not satisfied with
your new prices but we must have, at once, the
4500 pieces on the attached order.

I wish you would figure again and hope you
can make these prices substantially lower on these
fill-in orders. If you cannot, tell Mr. Ingle
he had better seriously consider before he comes
around this way again!

Referring to your letter of April 10th relative to revised price on metal money the quantity originally purchased at prices per your letter would have cost \$2377.50 as against the price paid of \$1500.00.

I understand just as well as anyone else that smaller quantities cannot be run through at the same price as large quantities but in view of the fact that no new dies are necessary, I believe at this time it would seem to me that the revised prices are still high. Where I slipped up when I made the original purchase was not to have an understanding as to what future lots would cost, making due allowance, of course, for any changes in price of material, etc.

August 25th, 1926.

Mr. J. E. Sheridan, General Purchasing Agent,
The Junior Mercantile Company,
Fairmont, West Va.

Dear Mr. Sheridan:-

We thank you for your inquiry of the 24th and after having refigured our costs we quote you the following prices on renewal orders for Patented Metal Scrip, namely;

One-cent pieces	\$15.00 per thousand pieces
Five-cent "	\$22.50 "

The above in round scrip as heretofore.

Denominations from 10¢ to \$1.00 inclusive, all of the scalloped shape as heretofore, \$30.00 per M pes.

Terms; 3% 10 days - 30 days net-- F.O.B. Dayton.

It is sincerely hoped that these figures, which we have made as low as we consistently can, will merit your order and if we are so favored you may bank upon our very best attention to same.

Thanking you kindly in advance and with personal regards, we are

Yours very truly,
Ingle-Schierloh Company,

Gentlemen:

Very sorry, need, to note that you purchased
out of elsewhere.

Don't go into details regarding origination
and location of "Patented" label scrip, and after
its establishment, inroads by others - subsequent
efforts to have us advance prices very materially -
falling in this - an attempt to drive us out of the
picture through price cutting - then the arrival
at the desired goal and price fixing on a high
level, with no alternative as to source.

Your interests are best served of course by keeping
in contact with an open source of supply and we
merely mention the foregoing in passing, that you
may remember us when again you have a scrip require-

Mr. Stephen C. Pohe, General Manager
JUNIOR MERCANTILE COMPANY
Omar, W. Va.

Attention, Mr. C. M. Reed

Dear Mr. Reed:

We have for acknowledgement your letter of November 1st.

Our judgment is, that the Dollar Scrip piece submitted, is not a counterfeit. It is however, slightly off standard in the stroke of the press and in that the die was not as clean as it might have been from the accumulation of small particles of "free" metal accompanying the "blanks", which tend to fill up the angular openings in letters such as the "A", where they are inclined to lodge. Unless the die is continuously wire-brushed, such a condition results.

We note your query "are we protected against anyone counterfeiting coin purchased from you?" This raises a question that is timely and on which a clarification is called for.

Since the year 1909 we have afforded protection to customers using our scrip and the clarification mentioned has reference to our position respecting such guarantee. In all instances, we must rely upon the piece in its entirety for the detection of variations in its construction, to substantiate counterfeiting. We styled your particular piece of scrip in its entirety, as to copy arrangement of the face side, copy arrangement as to reverse side and the scalloped shape, saying nothing of gauge and type of material.

Now then, when such duplication, involving two-thirds of the set-up at least, is authorized by the users themselves and they themselves become involved in the transaction, as is apparently evidenced by your letter of very recent date, namely October 26th -- and we believe we are correct in assuming that you would not be ordering scrip of a type other than that which was of the appearance of the scrip which we originally supplied your firm -- then you will readily see that there is at once introduced a very serious and grave question anent the subject of guarantee of protection. We submit a substitute piece for circulation to replace the piece in question.

Cordially yours,

Dear Sir:

We are very glad to give you this information asked for in your letter of yesterday, with reference to the quantities of Lollars and Half-Lollars pieces shipped you by us, since the inauguration of the Total Strip System, under Mr. F. A. Sheridan in 1925, namely:

	<u>Lollars</u>	<u>Half-Lollars</u>
Oct 10, 1925	3,600	7,500
Apr 29, 1926	2,000	3,800
Sep 23, 1926	1,000	5,500
Total	6,600	16,800

This record constitutes what we shipped you. First, we of course cannot answer for amounts that by any chance may have been obtained from any other source, if any. We mention this merely for your guidance, if a check up is planned.

If we may be of any further service Mr. Brinson, will you commend us, please?

Gentlemen:

I have before me a file of correspondence in which are copies of your letters of November 4th and 6th addressed to Mr. Stephen C. Pohe, General Manager of our Company at Omar, West Virginia, with reference to metal scrip which you have furnished to our Company in the past.

From your letter of the 6th referred to we note that we purchased from you three different lots under dates of October 10th, 1925, August 29th, 1926 and September 23rd, 1926.

I assume that your records will no doubt indicate whether or not these different lots were all of the same dimensions as to size, shape and gauge of metal, and I will greatly appreciate your advising me in detail with reference thereto.

A prompt response is solicited.

Yours very truly

Gentlemen:

Is acknowledging receipt of your letter of the 23rd instant.

The Tavin referred to in our letter of the sixth
several times and not to be used for generalizations only.
Size, shape and weight of metal, as one would
indicate and to the best of our knowledge, were alike
as to the various lots furnished. There may have
been some slight variation in gauge, as quite often
occurs in the rolling of stock, but not any variation
of consequence.

Yours cordially,

Gentlemen:

Thank you for your letter 25th replying to mine of the 23rd with reference to size, shape and gauge of metal of different lots of scrip manufactured by you for our company at Omar.

From the correspondence which you have had with our general manager, Mr. S. C. Cohe, at Omar, you of course are aware of our purpose in obtaining the information for which we have asked, it being suspected that there is some counterfeit metal scrip in circulation, and it being for the purpose of identifying this and determining definitely whether or not such is the case that we have a desire for accurate detail.

We note your statement that so far as your records would indicate and to the best of your knowledge different lots were alike, but that there might have been some slight variation in gauge.

It occurs to us that in all probability by reason of the character of the commodity, and the use to which it is put, that your company no doubt keeps an accurate record, and probably still has in its possession the actual dies used in making these different lots of scrip, and that therefore you are probably able to tell us definitely whether or not there was any difference in the size and shape, though we can appreciate the fact that there might have been a slight difference in the gauge of metal.

We thank you for the information given but will further appreciate it if you will kindly inform us whether or not it is possible for you to state definitely with reference to the size and shape of the coins prepared at different times as previously referred to.

Your prompt response will be appreciated.

Yours truly

Dear Sir:

Enclosed are particulars as to the shape of the
piece of metal which is the subject of the
present inquiry and the shape of the dollar,
which is the subject of the present inquiry.

I do not have access to the record of the dollar
of the year 1934 and recently reported, but
it would seem to me that if any piece was implicated,
it would be the dollar piece. If there would be any
question in the minds of your staff as to this,
it seems to me, the smartest thing to do, would be
to immediately let us make up a complete new lot of
dollar pieces, of different design and with special
piercing identification, (which we will do at half the
price previously charged) and then immediately call
in all of the old type and invalidate any further
redemptions of that particular shape.

Very truly yours,

J. H. Schierloh.

Gentlemen:

During the latter days of October 1935 we wrote you in regards to some metal coin which we believed to be counterfeit. We have your answer to ours in which you stated that you did not believe the metal coin to be counterfeit, but that you thought that it was the fault of the dye in making the same.

We have now retired approximately \$2,300.00 of these \$1.00 pieces which we believe to be inferior to the rest of the coin that has been purchased from you; and we would like to exchange these bad coins for one of a good grade and of legible print.

Would you kindly advise us what procedure we may take to have this coin exchanged, and if there will be any cost.

Attention, Mr. W. W. Brinson

Gentlemen :

We have your letter of the 11th.

It is with our conviction, that to provide any future demand, all of your dollar scrip pieces should be pierced with a special identification mark, such as is roughly suggested herewith, both as to shape of piercing (the letters J and W joined) and as to location in piece.

We furnished you a total of 6600 pieces and you made a purchase of 1,000 pieces, so far as we have been advised (your inquiry 10/17/35) making a total of 7600 pieces. If all were pierced as suggested, the pieces you have withdrawn from circulation could be bonafided, by so doing. The total cost, inclusive of die, for this operation, would be \$35.20.

Or, if you prefer, we will make up 2,300 new pieces for you, in substitution for the pieces you have withdrawn from circulation, for the price of \$31.05.

The figures given are F. J. B. Dayton and in the event of piercing, delivery from your point to Dayton on an F.O.B. Dayton, basis.

Referring to recent correspondence and to my visit with you on May 1st regarding the counterfeiting of metal coin of the Junior Mercantile Company of your manufacture, will appreciate your advising whether or not you will be at your place of business between 1:00 and 2:00 o'clock Monday, June 8th.

Prior to the date of my visit above referred to and subsequent to the time we forwarded you the original suspicious sample, which you did not consider to be counterfeit as expressed in your letter addressed to our Mr. Stephen C. Pohe under date of November 4th, but which as per your conversation with me, was upon our submission of the quantity for replacement discovered by you to be counterfeit, our stores accumulated an additional quantity of this metal coin and it is the desire of Mr. A. H. Crane, Treasurer of our company and myself to have a further conference with you on the subject.

Therefore, in the event you will not be at your place of business at the time referred to above on Monday, June 8th, will you not kindly advise promptly so that the information may be at hand not later than Monday A.M. On the other hand we are very much in hopes that you will be there, as Mr. Crane desires to call upon you at that time, ~~en~~ stopping off on his way to New York.

Attention Mr. J. E. Schiewink

Gentlemen:

Referring to our conversation in your office yesterday with reference to counterfeiting coins of the Junior Mercantile Company of Ohio manufacture, it is our understanding that you have a long established policy of removable coin manufacturers to protect users of metal coin and use all reasonable effort in apprehending counterfeiters, and upon consideration this we feel that your company has taken a rather arbitrary and unco-operative attitude in this instance.

In reporting to our people the progress made in this matter it had been necessary for us to outline your attitude, which seems somewhat inconsistent with your established practice of giving protection to users of your metal coins.

As stated to you, the only kind of coin other than that of your manufacture, introduced by us, was the Osborne Re-Enter Company's patented coin. At the time this counterfeit coin entered we had but 1,000 of the one dollar denomination of their issue as against 8600 of your make and this Osborne coin had been in circulation since June, 1930. Also, the Osborne Company is the only company other than your company that whom we have requested circulation or made any purchases.

We are anxious to apprehend the maker of this counterfeit coin and possibly locate our dealer that we have not received the active co-operation which we anticipated and that you have declined to accept any liability for any expense incurred in this direction, we are yet in hopes that you will see your way clear to assist us to the extent of furnishing us with such information as can be helpful in solving this problem.

In submitting to Detective Agency we would desire to have all details possible and will therefore be pleased to have your advice as to whether or not in your opinion the 2000 and dollar pieces sent you last January, which you advised we carry in our worn counter set, were made with the same die as was used in making the original sample submitted with our letter of November 1, and those coins which were examined by us during my visit in May, which at that time were determined to be counterfeit.

Considerable time has already elapsed and as we are anxious to proceed without further delay, will you so kindly respond by first mail and oblige

Yours very truly,

Att'n. Mr. C. E. Armstrong

Gentlemen:

Yours of the eleventh at hand. Search, we are sorry to state, fails to locate the Scrip piece first sent us and this was doubtless destroyed as was the subsequent lot of 2400 pieces, returned by you for exchange. As a consequence, we are unable to make the comparison requested. We can state however, that the lot of 2400 pieces referred to, were not made from our dies.

May we say, that the use of Scrip as distinguished from so-called trade checks, in any quantity, either as a complete system, or partially, does afford protection to the extent, that by reason of its mechanical make up, it is not as readily duplicatable. This unquestionably, will be generally admitted.

The type and manner of protection however, which you refer to, and for manifest reasons, could not possibly obtain, except under such conditions as we have endeavored to outline and make clear to you, namely exclusive system usage.

Extending your thought, it might be justly assumed, for the purpose of example, that were we to furnish 100 pieces of Dollar Scrip, or even less, at a very nominal charge of a couple of dollars, which Scrip was to be used in conjunction with Scrip of another manufacturer, that in the event of duplication, we should without restriction, hold ourselves answerable and responsible for the apprehending and prosecution of the perpetrator of the duplication and all parties therewith concerned, in addition to making good such monetary loss as might have been sustained. It would be utterly fallacious and to say the least unbusinesslike, for us to so agree or contract.

May we repeat, and in the kindest spirit, what was stated to your Mr. Armstrong, namely, that had due and serious consideration been given the purpose and value of the scrip, as a system to be safeguarded against any inroad, certainly no substitution would have been invited by yourselves for a mere pittance, relatively speaking, of saving in the difference of cost between our Scrip and such other as was offered you, which admittedly was the case on several occasions, and by so doing, at least inviting variations in the scrip in circulation.

Attention: Mr. Coddington;

Gentlemen:-

Your telegram at hand. We are in doubt about some of the details and thought best first to write you.

Do you wish these checks made up same as last or shall we make these up in copper - the last ones were brass.

Also - do you wish NO.2 to be on the checks, or is this unnecessary.

Just as soon as we hear from you we will rush the order through with all possible haste.

We will furnish you this assorted lot of 700 pieces for \$29.75, which is less than our regular price on less than 1000 pieces.

Awaiting your immediate reply in the enclosed stamped envelope, we are,

Sincerely yours,

Ingle-Schierloh Co.,

Attention: Mr. Goodington,

Dear Sir:-

From telephone call. We are in pretty short of the bottle and thought
best first to write you.

As you will know, we have made up some 12 1/2 oz. bottles of wine from up in
copper - the best and very good.

Also - do you wish 12 1/2 oz. in the market, as in this business.

Just as soon as we have them you will wish the order shipped with all
possible haste.

We will furnish you this quantity for at 100 cents per 12 1/2 oz. bottle, which is
less than our regular price on less than 1000 pieces.

Awaiting your immediate reply in the enclosed stamped envelope, we are,

Sincerely yours

Attention J. H. Schierloh,
Gen. Manager.

Dear Mr. Schierloh:-

Your letter of January 6th, 1932
received questioning on 4800 pieces of metal scrip. Please
make up the following assortment:-

100	Pieces	Dollar	Patented	Metal	Scrip	-BRASS
100	"	50¢	"	"	"	-N. Silver
100	"	25¢	"	"	"	-Bronze
500	"	10¢	"	"	"	-Brass
500	"	5¢	"	"	"	-Bronze
3500	"	1¢	"	"	"	-N. Silver

Please note that we have changed
the pennies to nickle silver as we feel that this will
eliminate a number of mistakes that we might make in
using our old metal scrip along with the new.

It is satisfactory to have the re-
versed side of the scrip the same design as your letter-
head, but we would like to suggest that the face side
of the scrip be as per sketch on the bottom of this
letter. It is our experience that it eliminates mis-
takes to have it marked as we show. Do not touch any of
the money. This to be shipped to us at a price of
\$133.60. Terms net. F. O. B. Dayton, Ohio. I am,

We would appreciate receiving this quotation promptly.

Also we have considerable old scrip
money on hand which we used at other stores and which
shows the names of these stores on same. We would appre-
ciate you advising us whether or not you could use this
scrip in any way, and if so what you could allow us for
it.

Mr. John Angotti, Manager
A. B. SUPPLY COMPANY
Osage, W. Va.

Dear Mr. Angotti:

We have your valued favor of the 12th asking for price on five thousand, four hundred (5,400) pieces of assorted MASTER PATENTED METAL SCRIP all same as last shipped you and we are pleased to quote you lot price of \$144.00, terms net, F. O. B. Dayton, Ohio. It is understood that we will use the same dies and materials as before and we are prepared to give your needs our best and immediate attention.

Sorry that the process of manufacture of Master Metal Scrip does not make it possible to work over old scrip. This would only have scrap value and you could just as easily deface it there and save the freight charges on its return, since we would have to deduct the charges from the scrap allowance and it would be very small. By defacing it we mean disfigure it so that if you sold it there for scrap, it would not get back into circulation.

Shall be very glad to have your immediate authority to proceed with the additional scrip quoted on above and if you desire us to take care of this quickly, we suggest you wire us collect requesting us to "ENTER OUR ORDER PURSUANT YOUR LETTER THIRTEENTH AND RUSH SCRIP" - just word your telegram like that and as suggested, send it in collect.

your letter last week to this effect. I have called
up the bookkeeper of the Chaplin Collieries Company with
reference to correct location of 11 ton per, and I have
now learned that this order will be for 10 tons this
week, as the 11 ton and 10 ton will arrive in the 11, it
was impossible to the work of this week.

As it is impossible to ship 10 tons this week
we are sorry and we hope possibly, and we will be some
quantity in a month this order to the 11 ton. We are
all in some time and we will be sure to get the
order in time to the work of this week.

Mr. Angotti is to be one of the big
shots in the new Co. So he signed the order.

To Be made with dies +
metal like ~~AB~~ AB Supply But
they are to be Pierced. Thought he
would like an "A" if it would look
all right, for Angotti you know.

They are in a rush so hurry it up as much as
you can. Wanted to know if he could expect it in a
week.

I had intended to bring the order to Dayton, but
I am afraid of this water. Rivers already gone
crazy. Our store at your door will be wanting more
soon in a hurry soon.

Sincerely,

Chas. L. Hughes

Gentlemen;

I have not written you for some time. I saw Angotti last week. He told me he would ^{not} send check for \$60.00 at once and the remainder ^{paid} _{5/1} May 10. I hope he has already sent it in.

"Our store at your door", is still on the wrong side of the ledger. I am not sure about its future. Maybe it will weather the gale - you did not return our note nor the check which we sent you.

The loading machines have cut — out of the coal company stores. One of the things Angotti asked about was the wording on scrip "Redeemable on Paydays". Some one had told him it should have been on his scrip. Is that necessary?

I hope to be able to send you some other orders soon. The penny size coins are being used pretty promiscuously in dime slot machines and music boxes. Is there any remedy?

Sincerely,
Chas. L. Hughes

Gentlemen;

Has Mr. Angotti made final Payment for Premier Block Supply? I saw him early in the month and he said he thought Payment had been made. He also said there was a likely hood that the A-B Supply would be reorganized and a new company name used. He wanted to know about a refund on A-B scrip, what can I quote on new scrip and refund on coins. Loading machines are used now in nearly all mines in this section.

Sincerely,
Chas. L. Hughes

Mr. Chas. L. Hughes
Morgantown, W. Va.

Dear Mr. Hughes:

We wrote Angotti the other day regarding the balance of \$62.45 due on the February second invoice (our letter dated 6/25) he had paid 60.00 on May seventh.

You state that they contemplate or that it is likely that they may reorganize and change the name of the A.B. Supply Co. and that Angotti inquires as to what allowance would be made him on the A.B. Supply Co., scrip.

We have always had a policy, that in case of theft or fire, when a company's scrip necessarily had to be cancelled or called in, to make up a new supply at 1/2 price.

In case of a change in name, due to reorganization or sale, we make an allowance of 1/3 from the current price list, providing the customer returns a like supply of the old scrip against which credit has been allowed. You can see the wisdom of this, otherwise the customer might be returning an assortment of 2,000 pieces and ordering 4,000 pieces, thus building up an additional supply at the reduced rate. The reduced rate applies only to the quantity that matches the quantity returned. The returned scrip must be securely boxed against possible breakage and loss and returned prepaid.

In the case of a 1/3 allowance, we pay a ten percent commission on the net amount charged the customer, that is after deducting allowance. If we do not make ourselves clear, please let us know.

Yours very truly,
Ingle-Schierloh Company

Gentlemen,

Angotti wants the same amount of scrip for the new store that he had last time. I don't have amounts of each kind listed.

The new name Pioneer Stores Inc.
Cut "P" Ossage, W. Va.

I told him the price would be \$3.75 on large pieces same as last time but we would give him credit of one cent on pieces returned. That will be about the same as $\frac{1}{3}$ off, because there may be a little more for return than the amount ordered.

Mr. Chas. Hughes
Morgantown, W. Va.

Dear Hughes:

Just returned to my desk. Have your correspondence. Please set me straight on some details. Are we duplicating the amount of scrip furnished previously to Premier Supply Co., Osage? Your amount mentioned namely \$122.45 would so indicate. This was on the basis of \$3.75 for dollars and halves and \$3.50 for Quarters to Nickels inclusive and 86¢ C for 5,000 pennies. On the other hand, you mention A-B Supply Co., as having gone bankrupt some months ago and it's a little confusing.

We'll make up a lot of scrip for PIONEER STORES INC., OSAGE, W. VA. with letter "P" piercing as follows:

300 Dollars	
200 Halves	200 Quarters
500 Dimes	1,000 Nickels
XXXXXXXXXXXX	5,000 Pennies
XXXXXXXXXXXX	

We will allow a return credit of 1¢ on the sizes above the penny scrip, for all like pieces returned piece for piece. In other words we will not, in fact cannot make any allowance for penny scrip returned, nor against our low charge for the penny scrip shipped. We will allow the credit of 1¢ on each denomination piece for piece, not to exceed the amount shipped. This is our current rule where a displacement credit is allowed. To clarify--

If 300 Dollars are shipped, we will allow
a credit of 1¢ for each Dollar piece, up to
300 Dollars Pieces, for each piece returned.

Please get that clear. The same applies to
Halves, etc. down the line

If anything to the contrary from the above, you had best wire us at once.

Check for commission on Premier is being sent you, assuming their check has been cleared. We hope Angotti will be a little speedier on this remittance than he was on Premier. As to commission on PIONEER, you understand that the rate will apply to the net amount received by us and it must also be understood that prompt return is to be made of old scrip, pursuant to above, so that billing will not be interfered with.

Mr. Chas. L. Hughes
Morgantown, W. Va.

Dear Mr. Hughes:

There remains a balance due from Pioneer Stores, Inc., amounting to \$46.59, dating back to August 20th of last year. Surely we have been exceptionally lenient in this matter and the account should be cleaned up.

We have written Mr. Angotti today and believe if you will follow up the matter now, we can get this item settled without further delay. Push it all you can.

Of course, if by any chance, our friend Hughes should incidentally send us any further business on Scrip, we shouldn't mind it one bit. Surely, some of the firms down your way and there are quite a few listed in and around Morgantown, should be needing at least a few additional pieces from time to time and personal contacts have always merited orders.

You never told us how your "Store at Your Door" idea ever worked out. Mr., did you pass up this venture?

Cordially yours,

Gentlemen:

We very much regret to note that an examination of our books discloses that this balance still remains unpaid although the account dates back to August, last year.

Our regular terms are 30 days net and we believe you will grant therefore, that we have been extremely lenient in the matter of this charge.

However, the matter should be taken care of at once now, and we shall expect to receive your check by return mail.

Mr. John Angotti,
54 West Street
Morgantown, W. Va.

Dear Mr. Angotti:

We thank you very much for your valued letter of the 23rd.

You are now working on the back of your scrip like that at the top right. "IN FUTURE", since you are using the name of a supply company on the face side. If the scrip started the name of a coal company as the one issuing, then you would have to have wording to conform to the law - "PAYABLE IN 30 OR 60 DAY DAYS WHEN THE EMPLOYEE HAS BEEN ISSUED. IT CANNOT BE TRANSFERABLE."

Of course you can have it either way, if you put it with the special wording.

We can also please (cut through) a special design, of our selection so that your scrip will have a distinguishing mark.

The lot of seven thousand, two hundred (7,200) pieces will cost a total of \$158.34 - terms \$79.17 cash with order and the balance on arrival. Net, F. O. B. Dayton.

Would appreciate hearing from you without delay and immediately you tell us exactly what copy you want on the back of the scrip we will get the order without delay.

Yours sketch does not show the "amount" on the face side. Do you want it that way. Scrip usually shows the amount on both sides, like in the picture at the top of this letterhead.

Mr. John Angotti
54 West Street
Morgantown, W. Va.

Dear Sir:

Replying to your letter of the 24th. We will accept your order on the price basis stated, ~~\$72.17~~ cash with order and following this will allow you 1¢ per piece, up to 2200 pieces, on any old scrip returned (limit \$22.00) this to be adjusted against the balance payable on arrival. We make no allowance against penny scrip and outside of the penny size, your order calls for 2200 pieces and credit is limited to the number of pieces ordered.

We cannot furnish a "JA" piercing, but we can give you a special identification mark pierced through each piece, the design of our selection.

It will be legal for you to use the same patented design and wording as appears on the back of the Premier Supply Co. scrip a sample of which you sent us.

We trust we have made ourselves clear on the matter of credit. You would be permitted to return up to 2200 pieces, but whatever number of pieces you returned, the credit of 1¢ per piece would be allowed accordingly. In other words if you returned 1500 pieces, the credit would be \$15.00, etc., and the amount you would pay on arrival, would have this credit deducted.

It is hoped that we may have the pleasure of serving you and await your immediate reply.

Yours very truly,

We have your letter of October 21st referring to a certain lot of scrip you claim you returned back in May for credit.

We wrote you several times before regarding this matter, saying that no such lot of scrip was received by us.

Suggest you trace the shipment if you can, since you must have some receipt from the express office or post office to show for the shipment.

We naturally cannot allow any credit until we get the scrip you speak of and we are very certain it never was received here. We are sorry, if the shipment went astray.

Mr. W. J. Blankenship,
Blankenship & Mullins,
Peach Creek, West Va.

Dear Sir:-

We acknowledge receipt of your order for scrip and note the change desired in the location to be stamped on the scrip namely, Peach Creek.

We also had the latter name spelled Mullens - we have corrected this to read Mullins.

Shipment will be made on January 20th to allow ample time for delivery for February 1st installation and will go forward via express to Logan.

After re-checking the assortment specified, we have concluded to increase the Halves and Quarters 100 pieces each, as we were inclined to the opinion that these two items would not prove sufficient. This slight addition will bring the total number of pieces to 5000 assorted and the amount to 187.90 in place of 180.00, which we trust will be satisfactory to you.

You are certain to find this plan the Best, Quickest and Cheapest plan on the market and we take this occasion to wish you every success.

Very sincerely yours,

J. W. Schierloh,

Dear Sirs:

I have just received from the English-Speaking Co. a copy of your letter of the 10th inst. regarding the order for 5000 lbs. of

Shredded Paper. I am writing you to say that this order has been placed with the English-Speaking Co. and will be shipped to you as soon as the paper is received. We will bill you for the same.

Very truly yours,

Mr. J. B. Schuchman
Peach Creek, N. Va.

Dear Mr. Schuchman:

Excuse the slight delay in our replying to your letter of the 5th.

You raise the question of price charged for pencils. It has been our practice to furnish heavy scrip at \$2.50 per 100 pieces on re-orders, that is, after the initial order and after the stock has been made up. This is less than charged for the minor denominations, but because of the small face value of this scrip piece, we are unable to get the cost lower, or higher the selling price. The trick is, that while they take a little less total than the other sizes, they are much more difficult to handle, because of being so small and slow up the press operation considerably. Of course, if you will take the charge of all denominations and figure replacement cost on this basis, you will be money ahead. Even the roller piece for example, if a customer should lose one of these, it would only cost you 5¢ to replace it (in 10¢ lots of course) and you would be 5¢ up on the spot. The heavy scrip we charged you, stands you at 2¢ each, not 2¢ each, as mentioned in your letter.

We really hardly break even at the reduced price in making. We have made them slightly cheaper in the past, but only when the customer ordered 5,000 at a time.

Yours cordially,
Anglo-American Supply

J. B. Schuchman.

Mr. W. J. Sissons,
Bagland Coal Company,
Pemberton, West Va.

Dear Mr. Sissons:- I tried to get you on the phone last Thursday while in Beckley, but could not make connection.

There were only a half dozen at the meeting on account of the rain, so no action was taken regarding the scrip law, but it seemed to be the opinion of McGinnis & McGinnis, Attorneys of Beckley that there was only one safe course to pursue.

I sent you a copy of their opinion several days ago.

Mr. Clark of East Gulf gave me his order over phone and since I could not reach you decided to write you. He came to the conclusion with Mr. Wood that it was only necessary to stamp "First Half" and "Second Half" on the seller's piece. Since your order does not call for dollars you need not concern yourself about that matter.

You can safely leave this matter with me and I can assure you it will be handled to your complete satisfaction. We agree it is alright to go ahead with the order and since the time is short we are entering the same for execution.

If however, for any reason this should not accord with your views, wire us at our expense. I talked with Mr. Smith Thursday and he stated that they were leaving the matter with you and that your decision would be O.K. with them.

Assuring you of the best attention to your order and of my sincere appreciation of the opportunity to serve you, believe me

Very truly yours,

Mr. W. J. Sisson,
Ragland Coal Company,
Pemberton, West Va.

Dear Mr. Sisson:-

Answering your letter of the 4th.

Mr. Smith must have had 1.00 scrip in mind when he suggested that the scrip should read first and second half.

We have never made up the "change" scrip to read that way, only the 1.00 pieces. Your office at Beckley instructed, in connection with the C. H. Mead scrip order, that the dollars only be made up to read that way- but none of the balance of their scrip so reads.

Very sincerely yours,

Ingle - Schierloh Company.

Dear Mr. Ingle:

We will want some additional metal script at our Pierce store. If you recall when here, this script is larger in diameter and thinner than the last script that you made for us. Do you have the dies from which this former script was made? We will want this script made same as the old issue. We will not want the new inscription on it. Kindly advise at once as we would like to have this made as soon as possible.

Very truly yours,

Assistant General Manager.

We are in receipt of your letter of the 12th.,

4 Pieces Nickels.

While we aim to be exact in our count of the scrip, our
recheck would seem to establish the shortage mentioned. We
should like to accommodate you in forwarding the pieces noted,
but to set up the presses for so small a number would entail
a big expense and we therefore hope it will be agreeable to

Ingle Schierloh Company,
113-115 E. Second Street,
Dayton, Ohio.

Gentlemen:

Orders are attached for metal scrip for four
of our stores.

Would like to have these pieces made of the
same material as those recently ordered for our Boswell,
Pennsylvania store, which I understand is Copper. Also
want the inscription the same as used on the Boswell
pieces except for the name of the store for which it is
purchased.

Scrip should be billed to the stores named
in duplicate and triplicate invoice sent to this office.
Shipments should be packed separately and marked for the
store for which they are intended, and all shipped together
by express to Thomas, West Virginia.

Yours truly,

Vice President and General Manager.

Mr. Wm. F. Doyle, W. F. & Son, Inc.,
The Luman and Landtrock Company
Department Store
New York, N. Y.

Dear Mr. Doyle:

We have your letter of the 21st and your letter
of the 23rd regarding the scrip referred to for your
store, New York, Time and Motion.

There is a question about the scrip which should be
changed and the scrip referred to, namely this-

The scrip that we have scrip referred to is used, in
reference to the scrip referred to the scrip for the other stores
and the scrip referred to is used for the scrip - "X"

The scrip referred to is used for the scrip referred to the same
as used on the scrip referred to and referred to in the orders the
instructions are "Instructions scrip, like scrip on previous *last*
order" Now this is the last scrip, referring to Boswell,
or it may mean the last previous order referred for the store
mentioned in the order. In the end a scrip, "In case scrip etc"
would be used and in the latter case "on Trade" would be used.

We wish you would wire us and read the scrip, so as to clarify
this. Merely wire "reverse side of scrip" as Boswell (or,
as before, as the case might be) We rather surmise that you
want the scrip changed to read as Boswell's scrip read on the
reverse side, but rather than make up the scrip on a guess, we
deemed it advisable to first contact you and get confirmation
one way or another.

The Boswell Scrip was of Bronze and we understand that all orders
are to be of that material throughout. All face dies show the company
name and store locations and each has a special letter piercing. This
arrangement will not be changed. Note also your instructions with
reference to packing, shipping and billing.

Cordially yours,

J. H. Schierloh-3
